Guidelines for Safe and Simple GBR Procedures

DAY 3 LIVE SURGERY

Demo Live Surgery Hands-on For GBR Procedures

DAY 4 DOCUMENTATION OF CASES

Essentials OF Dental Photography
Documentation Of Cases
Record Maintenance
Live Surgery By Participants

It's a one year course

In 5 Modules

Each module is of 4 Days

4 modules are taken in India

One module is in Spain

100 teaching Hours

30 CTC Points

Module II

DAY 1 CRESTAL SINUS LIFT

Fundamentals of Maxillary Sinus Including Sinus Anatomy
Various Crestal Sinus Augmentation Techniques
Understanding Advantages and Disadvantages
Conventional Osteotomes
Complication And Management

DAY 2 LATERAL SINUS LIFT

Understanding Basic Principles of Lateral Sinus Lift
Use of Various Sinus Bur Kits
Basic Principles and Various Application of Piezo Electric Surgery
Understanding How to Manage and Prevent Sinus Augmentation Complications

DAY 3 Live Demos

Sinus Demo Surgeries
Hands-on Exercise

DAY 4 Surgery By Participants

Module III

DAY 1 Case Selection:

When and Why Full Mouth Rehab
Understanding Occlusion and TMJ
Live Demonstration of T-Scan

DAY 2

All On 4/Tilted Implants
When and Why
Live Surgical Demonstration –
Rehabilitating Patient with Immediate
Functional Loading

DAY 3

Hands-on Exercise on Models
Live Surgery Demonstration

DAY 4

Indication and Application of Lasers
Demonstration of Laser
Live Surgery Demonstration Using Lasers
Navigated Implant Surgery

Module IV

Day 1

Advanced Prosthodontics
Single Implant Restoration
Multiple Implant restoration
cement vs Screw retained Restoration
Implant Occlusion

Day 2

Hands-on all on 4 protocols

Day3

PRF and Growth factors

Day 4

Omplications and Management written
Exam case presentation by participants

Module V

Spain Module

Day One

All on 4

Day Two

Zygoma and Pterygoid Implants

Day Three

Live Demos

Day Four

Convocation

Course Fee: 11000 €

Why UCAM Masters Course?

- UCAM programs are valid Internationally
- This will give you 30 CTC points for PG diploma master course and 50 CTC points for Msc Program.
- International Exposure with world class Speakers.
- World renowned faculty to give advanced learning.
- Comprehensive course, Mastership syllabus,
- All procedures will be taught in depth followed by on Patient Demonstrations 5 Patients will be allotted to each participant for on patient training.
- Free Hand for the participant to have On patient training Experience right from the Diagnosis to the final Prosthesis.
- This course consists of both basic & advanced procedures to address the needs of young & experienced dentists having little or no exposure towards Implantology.
- The curriculum is designed with many impressive concepts & procedures like: Implant systems & its variations, Science of Implantology, Hands-On pre-clinical training on Styrofoam jaw models, etc. Our fellowship curriculum also provides Implant placement on patients under expert supervision. In-fact every participant will need to place 5 implants on different patients followed by delivery of prosthesis. It includes Live Demos of Sinus Lifting, Ridge grafting, Ridge splitting, Socket preservation technique, immediate implant placement in anterior and posterior teeth,
- Each participant will be able to place implants in all such kind of challenging cases.
- This is one of the most advanced International Implant course in India by best Implantology Mentors.
